Idaho Operations Office  
785 DOE Place  
Idaho Falls, Idaho 83402

May 9, 1991

Mr. John D. Ledger  
Acting Bureau Chief  
Hazardous Materials Bureau  
Idaho Department of Health and Welfare  
1410 N. Hilton Road  
Boise, ID 83706

**SUBJECT:** Response to Information Request by Mr. Walker Howell Regarding  
Sampling Data at CPP-55-06 - ERD-161-91

**REFERENCE:** Letter from Steve R. Hill to Edwin Wilmot, "Data and  
Meeting Not Provided in Response to Three Previous Information  
Requests," dated April 1, 1991

Dear Mr. Ledger:

Mr. Walker Howell made a request at the April 3, 1991, COCA Biweekly Activity Managers Meeting for ground water data from well CPP-55-06. Now that clarification of the request has been obtained, DOE-ID is pleased to provide the enclosed document entitled, "CPP-55-06 Sampling and Analysis Data Package".

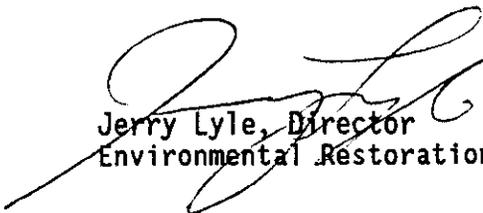

The enclosed document includes all data records associated with soil and ground water sampling operations performed at CPP-55-06. It includes summary data as well as the supporting analytical data packages. For your convenience, a chronology is provided in the document to clarify which data were previously provided to the Idaho Department of Health and Welfare. The only information which was not previously provided is the raw data from radiological analyses of water and soil samples.

Please note that the document distinguishes ground water data obtained after well development, according to established procedures, from grab samples obtained with a bailer prior to well development.

The enclosed document also satisfies the data request made in the referenced letter.

If you have any questions or concerns regarding the enclosed document, please contact either myself at (208) 526-1148 or L. A. Green (208) 526-0417.

Sincerely,

  
Jerry Lyle, Director  
Environmental Restoration Division

Enclosure

229076

Mr. John D. Ledger
