Re: U.S. Environmental Protection Agency Concurrence with the Revised Addendum to Table 1 of the Action Memorandum for General Decommissioning Activities Under the Idaho Cleanup Project (DOE/ID-11293, Revision 1)

Dear Mr. Cooper:

The EPA concurs with the revised addendum for inclusion of the 21 concrete vaults at the Transuranic Storage Area-Retrieval Enclosure (TSA-RE) containing solidified wastewater from the PM-2A tanks at Test Area North as additional facilities to be decommissioned under the general decommissioning action memorandum.

Please feel free to contact me at (509)376-8631 if you have any questions.

Sincerely,

Dennis Faulk, Program Manager
INL Project
