RE: Request for Addendum to Table 1 of the Action Memorandum for General Decommissioning Activities under the Idaho Cleanup Project (DOE/ID-11293, Revision 1)

Dear Mr. Shaw:

The Department of Environmental Quality (DEQ) has received and reviewed your letter of April 9, and via our response today, DEQ is approving your request to add the following structures to Table 1. Of the Action Memorandum for General Decommissioning Activities under the Idaho Cleanup Project: CPP-604 Rare Gas Plant/Waste Building, CPP-605 Blower Building, CPP-649 Atmospheric Protection Building, CPP-756 Pre-filter Vault, CPP-1773 Load Center # 13, CPP-1618 Liquid Effluent Treatment and Disposal, CPP-659 NEW Waste Calcining Facility, CPP-1659 Contaminated Equipment and Maintenance Building, CPP-708 INTEC Exhaust Stack, CPP-692 Waste Stack Monitor System, CPP-636 Waste Station WM-189-190, CPP-628 Tank Farm Control House, and CPP-1781 Miscellaneous TFF above ground structures. It is our understanding that due to the proximity and interrelatedness of several of these structures to CPP-604 that CPP-605, CPP-649, and CPP-756 will also be addressed in conjunction with the specific EE/CA for CPP-604, and that CPP-1659 will be addressed with the EE/CA for CPP-659.

If you have any further questions regarding this approval please contact me at (208) 373-0492.

Sincerely,

A handwritten signature in cursive script that reads "Daryl F. Koch".

Daryl F. Koch  
FFA/CO Manager  
Waste Management and Remediation Division
